- <https://github.com/michaelrodriguez23/SoftwareGuildBootCamp/tree/main/Summatives/M3/VendingMachine>

Experience

Java Apprentice 11/2019 – 09/2020
Software Guild, Remote, OH

- Intensive, fast-paced apprenticeship program that produces Java full-stack software developers
- Used Java and the Spring MVC framework to create a business application for a flooring company that enabled users to add,delete, and edit clients and orders. The program reads and writes to files to allow product and state tax updates. The program has a production & training mode that can toggle privileges
- Built a database using SQL to manage hotel reservations
- Built a Content Management System full-stack web application using Java, SQL, Thymeleaf and Spring framework

Research Associate 09/2017 – 01/2018
De-Yan Jovanovic Studios, New York, NY

- Conducted research for user behaviour, visual, and conceptual merchandising
- Developed concepts designed to produce campaign products around heterodox methods of shopping behaviour.
- Created mock-up presentations to show to clients

Social Media Content Producer 06/2014 – 05/2016
Opening Ceremony, New York, NY

- Produced multimedia content for the social media outlets; Instagram, Twitter, and their blog platform
- In 2015 Opening Ceremony won the award for best instagram by the council of Fashion Designs of America
- Communicated with brand directors for strategic creative campaigning that promoted sales of merchandise
